

## Johnson Matthey

To: All Concerned customers of JMI, West Chester, PA

May 30, 2006

From: Jim Malanga  
General Manager – Noble Metals  
West Chester, PA

Re: RoHS and WEEE Compliance to EU Directives

This letter is to advise you of the measure that our facility has taken to comply with the European Union (EU) Directives 2002/95/EC, Restriction on the use of certain Hazardous Substances (RoHS) and 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

We are complying with each measure as follows:

1. All of the metallic products that we melt and form comply with the applicable Limits for Cadmium, Lead and Chromium.
2. None of the other RoHS specified substances are intentionally added to our products and these are removed at time of processing by the high melting temperatures.
3. Due to the high intrinsic value of our precious metal products, we feel certain that a very high percentage is being reclaimed and recycled per the WEEE Directive at the end of useful service life. All of our customers are aware that Johnson Matthey Inc. has extensive refining services for these products.

PRECIOUS METALS DIVISION
